Check the printed pattern Enter the default numbers with the less noticeable stripes in the associated boxes. Note If it is difficult to choose the best standard, choose the configuration that produces the least perceptible vertical tracks. Follow the instructions in the message. (A) Less perceptible vertical bands (B) Confirm the message displayed and click OK The third pattern is printed. Click Print head alignment in the Maintenance tab The initial print head alignment dialog box opens. Switch head alignment to manual Check the aligning heads manually the check box. Important Don't open the paper outlet cover while printing is in progress. Paper load on printer Upload three size sheets A4 or simple letter size paper on the cassette. As instructed in the message, press the adjustment pattern on the plated and press the Start button on the printer. When you entered all required values, click OK. Image not available for color. To view this video download Flash Player Imagen no disponible paraColor: To see the discharge The head alignment of Flash Player Print fixes the print head installation positions and improves the deviated colors and lines. Normally, the printer is set for automatic head alignment. Even if the patterns with the less noticeable tracks are clicked in the preview window, their numbers are automatically inserted into the associated boxes. Even if the patterns with the less perceptible stripes are clicked in the preview window, their numbers are automatically inserted into the associated boxes. boxes.
