Top Reviews from The United Statesjoel Wingreviewed in the United States on May 21, 2019men On May 21, 2019, why do you move in a winning fan? "Guns, Lots of Guns" "John Wick" with a reward of 14 million dollars for your head. When the movie opens, Wick is on the way to the New York Public Library to retrieve a pair of high value items he hid in a book. When hitting the 18 hours, the hunt of rewards is declared open, and immediately attracts the attention of the rewards hunters. An Asian bunch is the first to locate the wick. At this point we are 10 minutes from the film, but to tell you more about the plot would ruin your visual experience, you will only see for yourself how everything is going on. Some comments: When you have a franchise on your hand after the unexpected mega-success of the first "John Wick", why do you move in a winning fan? Therefore, not surprisingly, the director (and former ex-hunting) Chad Stahelski returns to bring us the third part of the highly elegant, ultra-violent, and meticulously choreuing franchise. More is more except when it comes to words, where less is more: "What do you need?" Someone asks. "Guns, Lots of Guns" replies Wick, and that sums up the movie. Keanu Reeves could play Wick during sleep, probably. He seems to be having fun. Halle Berry's character has an appearance of 20-25 minutes in the But Berry makes sure every minute counts. Anjelica Houston has an even smaller, smaller role. BalÃ© practices as danger comes his way (and s³ reinforces the point that these struggles are as BalÃ©). Laurence Fishburne makes a ³ (maybe 5 min. total screen time). But none of it really matters. all about John Wick doing what John Wick does best. "John Wick - Chapter 3 Parabellum" opened wide this weekend. The Saturday night screening, where I saw it here in Cincinnati was sold out until the last place, and the public seemed to love the movie, laughing and screaming at all the right times. Yes, I said laughing. You cannot take the film at its nominal value, nor was that the intention. Some of the scenes are not on the top, you can't help laughing (while the bodies are flying) left and right). If you're not a fan of John Wick's previous films, you don't know EXACTLY what to expect, and that's EXACTLY what the movie offers. of course I encourage you not to check it out, whether in the theater, on Amazon Instant Video, or eventually on DVD/Blu-ray, and to draw your own ³conclusion.237 people found this useful Uri RazReviewed in the United States on May 22, 2019Poor and disappointing movie *** spoilers ***The original movie had a plot that kept the movie rolling forward through the footage of the footage. The plot of the second film was not so good, but it made up for exploring the universe created in the first film. Chapter 3 does not have a plot to speak about. 't especially John Wick running for his life, making it tiresome. Where the plot and exploration of the universe are introduced, it is done in a meaningless and empty way. An example is the introduction of The Old Man, a Bedu who lives in the middle of the Moroccan desert and stands above the high table. It is not clear why such a position would exist and why it would live in the middle of the desert, except to compensate for so many minutes of film. The adjudicator does for a similar problem. At the end of the film, it's: In a room at NY Continental, and magically knows when all her killers were killed by John Wick and Charon, just so she could call Winston to negotiate with him. It identifies itself as a contracting contribution, the film does not address the issue of what would prevent somebody from passing the currency in order to present itself as a contractor. This is an artificial method, just to build on existing currencies. I expected the movie to get to your late point within an hour, then continue to the plot of the movie room. Apparently there is more money going to the other side. Close film, I'll wait for the chrots before you see it.210 People found this usefulness in the United States in August 23, 2019 people really what were you waiting for? In ultraviolet time or Voodoo, you are instructed and use a Lionsgate VIP application on your phone. You also have the option to insert the 7-position code, hidden in very small letters below the QR on the Lionsgate website. After inserting the code, you will be redirected to a movie rescue site and asked to enter the same cord with your email. There are two warnings that you need to do before clicking ENTER (1. older than 13 and 2. Receive Lionsgate e-mail notifications). Once some gem has decided to combine the two with only one selection box, if you refuse spam emails, you can not continue because you are not confirming your age.ok, then By frustration, you decide to mark the box only to advance. A+ movie updateCompared Just wow. This movie beats you in all the right notes, from the chase/katana cycle scene (inspired by Villianess? good movie) for my favorite, the Moroccan sequence with Halle and the amazing dogs, for Laurence F for the superb weapon handling of Keanu & badassery, this movie simply rocks. The companion dog lovers will appreciate all references; I was impressed by Halle's phenomenal stunt work with them in Morocco, plus Halle's grain, beauty and strength (and the water bottle scene in the desert was lol). Keanu is intense, focused and excellent as always - you always deliver, thank you. Total handling of credible weapons, props to take time to train, you are authentic. Besides, when I look at the badass word in the dictionary, there you are, lol. All right. Good chemistry with Halle, and teamchoreography. I lol in the best line, for example Sophie "he shot my dog", Keanu deadpans "I understand". This is one of those rare movies I saw. i saw it. and, once again, it is full of creative action sequoia. The scene of the fight in Morocco that I have watched eight times; It© (57th minute race time), writing, visual fx, fight choreography, set design, the new Adjudicator (it shook; billions; It© convincing; strong), all of this © great. Brilliant direction, fast and intense rhythm. Writing has not gotten in the way of representation. Seeing the behind-the-scenes videos of youtube, Keanu & Halle thanks Keanu & Halle for putting in long hours to prepare for this, and shows it. Grand, local and unique scenes make this film a beautifully crafted film. If I improved it, it would cut all director/ah role (convolution, rhythm slowdown; Judi Dench would have been better) and would replace it with more Laurence F/howery; it is © excellent. In the library scene introducing the vile was boring af, a murderous woman in bad taste would have been better, like Harley Quinn. The 2nd scene of fighting with a bunch of fighters was a little too long. And the whole battle/director scene was truly boring and a waste; the story of the high table could have been written much better. The scenes with telephone operators updating Wick's condition added a touch of nice urge, retro style from the 1950s perfectly made (much better than a modern digital set; I liked the rotary phones/chalkboard, etc., brilliant design of the set). The concierge and hotel manager © have also made so-of-the-world performances. Mark D was great as Zero, a super mauzããtico for Keanu to fight, very human + lethal; made one of the best performances of villainous carãcter i've ever seen, being at the same time merciless and fãe of John Wick, beautiful act of equilãbrio. Movies are as good as your hero/violanos, and you crushed it. He genuinely liked his carat. He made a simplistic mauzããtico of various layers that © interesting. Funny sit on the sofa. Martial arts solids on final fighting scene in glass room. Bravo.I have the certainty that the cast and the team read all these chrots ... thank you very much to all You put hard work to make this a total kick movie; I appreciate your talent. Long date of Keanu, Halle and Laurence à € "Thank you! Ken Calhoun, founderTrademastery.p.s. If you need an incredibly beautiful and famous stakeholder dealer / SAX player in a small role in a future movie, it would be my honor, and yes I am a sane :) p.p.s.
