With the Xiaomi ADB driver installed on a PC, users have the ability to use 3G / 4G mobile data with a computer to surf the Internet through the Official Xiaomi PC Suite. Before that, firstly, you must enable USB debugging on the device to be recognized on the PC after installing the appropriate ADB drivers for Xiaomi. And, you can also downgrade or upgrade android firmware using Official Xiaomi USB Drivers. Xiaomi ADB Drivers Download for Windows 10, 8, 7 Xiaomi ADB Drivers OS Compatibility Xiaomi PC Suite Software is compatible with different versions of Windows. Such as Windows 10 (32-bit), Windows 10 (64-bit), Windows 8.1 (32-bit), Windows 8.1 (64-bit), Windows 8 (32-bit), Windows 8 (64-bit), Windows 7 (32-bit), Windows 7 (64-bit), Windows Vista (32-bit), Windows Vista (64-bit), and Windows XP (32-bit). Xiaomi ADB Drivers Installation Instructions for Windows 10, 8, 7 Installing Xiaomi ADB Drivers for Windows 10 To install the Xiaomi ADB Drivers in Windows 10 for the first time, do the following: Connect your Xiaomi Android smartphone to the USB port of your computer. In the left pane of Computer Management, select Device Manager. In the right pane of Device Manager, locate and expand portable devices or other devices, depending on what you see. Right-click on the name of the connected device and select Update Driver. In the Hardware Update Wizard, select Search for driver software on my computer and then click Next. Click Browse and navigate to the ADB driver folder. For example, the Google ADB driver is in android_sdk \ extras \ google \ usb_driver \ . Click Next to install the driver. Installing Xiaomi ADB Drivers for Windows 8.1 To install the Xiaomi ADB Drivers in Windows 8.1 for the first time, do the following: Connect the Xiaomi Android smartphone to the USB port of the computer. Access the search as follows: Touch screen: on your computer, drag it from the right end of the screen and touch Search. With the mouse: Point the lower right corner of the screen, move the mouse pointer up and click Search. In the search box, type and click Device Manager. Double-click on the device category and double-click on the desired device. Click on the Driver tab, click on Update Driver and follow the instructions. Installing Xiaomi ADB Drivers on Windows 7 To install the Xiaomi ADB Drivers in Windows 7 for the first time, do the following: Connect the Xiaomi Android smartphone to the USB port of the computer. Right-click on the computer on the desktop or in Windows Explorer and select Manage. Select Devices in the left panel. Locate and expand Another device in the right panel. Right-click on the device name (such as Nexus S) and select Update Driver. This will start the Hardware Update Wizard. Select Search for driver software on my computer and then click Next. Click Browse and navigate to the ADB driver folder. (The Google ADB driver is in android_sdk \ extras \ google \ usb_driver \ .) Click Next to install the driver. Or, to update an existing Xiaomi ADB Drivers in Windows 7 and higher with the new driver: Connect the Xiaomi Android smartphone to the USB port of the computer. Right-click on the computer on the desktop or in Windows Explorer and select Manage. Select Device Manager in the left pane of the Device Management window. Find and expand the Android phone in the right panel. Right-click on the ADB Android Composite interface and select Update Driver. This will start the Hardware Update Wizard. Select Install in a list or in a specific location and then click Next. Select Search for the best driver in these locations; uncheck Search removable media; and check Include this site in the survey. Click Browse and navigate to the ADB driver folder. (The Google ADB driver is in android_sdk \ extras \ google \ usb_driver \ .) Click Next to update the driver. Xiaomi ADB Drivers for Windows Download Incoming search terms: xiaomi adb driver driver adb xiaomixiaomi adb drivers Each software is released under license type that can be found on program pages as well as on search or category pages. Here are the most common license types: Freeware programs can be downloaded used free of charge and without any time limitations. Freeware products can be used free of charge for both personal and professional (commercial use). Open Source/Open Source software is software with source code that anyone can inspect, modify or enhance. Programs released under this license can be used at no cost for both personal and commercial purposes. There are many different open source licenses but they all must comply with the Open Source Definition - in brief, the software can be freely used, modified and shared. Free to Play/This license is commonly used for video games and it allows users to download and play the game for free. Basically, a product is offered Free to Play (Freemium) and the user can decide if he wants to pay the money (Premium) for additional features, services, virtual or physical goods that expand the functionality of the game. In some cases, ads may be shown to the users. Demo/Demo programs have a limited functionality for free, but charge for an advanced set of features or for the removal of advertisements from the program's interfaces. In some cases, all the functionality is disabled until the license is purchased. Demos are usually not time-limited (like Trial software) but the functionality is limited. Trial software allows the user to evaluate the software for a limited amount of time. After that trial period (usually 15 to 90 days) the user can decide whether to buy the software or not. Even though, most trial software products are only time-limited some also have feature limitations. Paid/Usually commercial software or games are produced for sale or to serve a commercial purpose. In order to be able to connect your Android device (phone/tablet) to your Windows computer, it is important to have the latest version of ADB drivers installed. On this page, you will find the latest and updated version of ADB drivers for your Android phone and tablet. File Name: latest_usb_driver_windows.zip Size: 8.3 MB What is ADB Driver? "ADB" stands for "Android Debug Bridge". When you are about to connect your smartphone to a computer, then ADB drivers are required for that purpose. It makes the stable connection between your smartphone and a computer. The installation of ADB driver is quite different from other drivers. Supported Operating System Windows 10 Windows 8 Windows 8.1 Windows 7 Windows Vista Windows XP How To Install The ADB Driver on Computer Step 1: Download the ADB Driver from above download section. Step 2: Now, Extract the ADB folder on your computer. Step 3: Moreover, open the device manager and click on your computer or laptop name whatever it is. Step 4: This time, click on "Action" and then click on "add the legacy driver". Step 5: Further, new windows will pop-up, click on "Next" and then select "Install the hardware that I manually select from the list (Advanced)". Step 6: Now, click on "Next" and then click on the "Have Disk" option. Finally, click on the "Browse" button and go to the extracted "adb driver" that you have downloaded before. Step 7: At this moment, select the ".inf" file located in the extracted ADB folder. Click on "OK" and proceed with "Next". Finally, the installation process will start and it will successfully be installed on your computer. Jun. 24. 2022 / Updated by Bessie Shaw to Windows Driver Solutions Your Android device can't connect to a Windows PC? You could try to download the ADB driver to fix it.
